

Dear Doctors,

As fellow GP's, we know that finding a medical practice that meets all your needs and still has that family feel can be challenging.

We invite you talk to us about joining our team at SmartClinics and the benefits of generous incentives, flexible hours and agreements, complete business support and our award-winning designed Clinics across Cairns, Townsville, Brisbane, Gold Coast and Tasmania.

While from the outside looking SmartClinics may seem like a 'big corporate', we, like over a dozen of our colleagues, are part-owners in our own clinics which means we have the flexibility to run our practice how we and our Doctors feel is best.

There are over 175 Doctors in our group who benefit from our centralised business & operations team as well as from dedicated Practice Managers, administration and nursing support, giving us more time to focus on our patients and quality patient outcomes.

Whether you are a GP or registrar looking to make a smart move, there are some exciting opportunities within our network that may interest you. We also have opportunities for Doctors interested in Clinic ownership throughout our network.

For a confidential discussion, you can contact us by visiting our website or by calling us on 3193 1300.

Warm regards,

SmartClinics GP Owners

Dr Frank Occhino
(Corinda)

Dr Helen Surtees
